# The Scars of David

photographs by Jan Grarup  
NOOR

Grarup's exhibit "The Scars of David" brings together his award winning work from Israel and Palestine; "The boys from Ramallah", a glimpse into the lives of the Palestinian youth of the west bank town of Ramallah and "The boys from Hebron", a similar look at the youth of the Israeli settlement town of Hebron.

Grarup's work questions the extreme pressure applied on the youth by the violence and fear that surrounds them. He provides us with an insight into the conditioning of a population at a very young age, for a conflict that is being passed through the generations.

The Boys from Hebron

The Boys from Ramallah
